NICOLE MILLER Intertwined from Signature Eyewear

## Nicole Miller's sunwear style *Intertwined* featured in 20/20 article

In an article showcasing how branded eyewear can play off of design elements from other items in the brand's product lines, the new sunwear style **Intertwined** is shown paired with a Nicole Miller bracelet, both sporting the new urban warrior chic look Nicole is embracing for Fall 2010. Design elements such as leather and bold metal hardware details will tie the Nicole Miller lines together, while also setting the entire brand apart from the competition come Autumn. **Style to be released in October!**
